

Advisor Portal -- User Manual

Getting Started

How to Access

- 1. Log in to Global ERP with your advisor credentials
- 2. Navigate to **Service Center** > **Advisor Portal** in the sidebar
- 3. Or go directly to: `/company/{companyId}/pis/advisor-portal`

What You'll See

The portal shows your name at the top ("Welcome, [Your Name]") and automatically loads your assigned leads, calls, and KPIs.

Dashboard Overview

KPI Cards (Top Row)

Eight cards showing your real-time performance:

Card	What It Shows
Total Leads	Number of leads assigned to you
Converted	Leads you've closed successfully
Car-In	Cars currently in the workshop
Car-Out	Cars delivered to customers
Today Collection	Total AED collected today
Total Revenue	Your all-time revenue
Total Calls	Your call count
Answer Rate	Percentage of calls you answered

Tabs

Tab	Shows
Leads	All your assigned leads
Car-In	Cars currently in workshop with full workflow status
Car Out	Delivered cars with invoice details
Customers	Your assigned customers
Calls	Your call history

Step-by-Step Guide

Step 1: Accepting a Lead

When a car checks in, the system automatically offers you a lead based on your performance score.

What you'll see: A yellow banner at the top of the portal:

New Lead Offered | TIER 3 (LOW)

Customer: Mohammed Mahdy | 542287649

Vehicle: DXB-B-10123 | VOLKSWAGEN Jetta S

Service: inspection_only

Pipeline Value: AED 0

[Timer: 4:32]

[Accept Lead]

What to do:

- 1. Review the customer and vehicle details
- 2. Click **Accept Lead** before the timer expires
- 3. If you don't accept in time, the lead goes to the next advisor and you receive a 5-point penalty

Timer by tier:

- ELITE (score 80+): 10 minutes
- STANDARD (score 50-79): 7 minutes
- LOW (score below 50): 5 minutes

Step 2: Monitoring the Car-In Dashboard

Click the **Car-In** tab to see all your active cars with workflow status.

Columns explained:

Column	What It Shows	Actions
Customer / Car	Name, phone, plate, car model	Click name to open lead
Car In Time	When car checked in	—
Pre-Inspection	Customer form status	Shows "Submitted" when done
Inspection	Inspection status	PDF button to download report
Estimate	Estimate status + amount	View Estimate or Create Estimate
Parts Order	Parts ordered/received count	View Parts opens detail popup
Job Card	Job progress + stages	View Job Card link
Quality	QC/final inspection status	View QC Report opens detail popup

Column	What It Shows	Actions
Invoice	Invoice status + amount	Pay Now or Create Invoice
Wallet	Customer wallet balance	Top Up button
Delivery	Gatepass/delivery status	Create Gatepass or Release Car

Step 3: Creating an Estimate

When: After inspection is completed

How:

1. In the Car-In tab, find the car
2. Click **Create Estimate** in the Estimate column
3. The estimate page opens with inspection findings pre-loaded
4. Set pricing for each item (OE/OEM/Aftermarket/Used prices)
5. Click **Save**

Step 4: Viewing Parts Status

How:

1. Click **View Parts** button in the Parts Order column
2. A popup shows all parts with:
 - Part name and vendor
 - Quote type (OEM/OE/AFTM/Used)
 - Price
 - Status (Approved/Ordered/Received)
 - Delivery note number and status

Step 5: Viewing QC Report

How:

1. Click **View QC Report** button in the Quality column
2. A popup shows:
 - **Final Inspection Checklist:** Test Drive, Cluster Warning, Tyre Check, Computer Reset, Protective Shields, Car Wash (PASS/FAIL)
 - **Inspection Details:** Date/time and inspector name
 - **Remarks:** Any notes from the inspector
 - **Final Inspection Photos:** Front, rear, right, left car photos
 - **Car Out Video:** Link to view
 - **Car Wash:** Status and media

Step 6: Creating an Invoice

When: After job card is completed and all parts are received

How:

1. Click **Create Invoice** in the Invoice column (or use the estimate page)
2. The **Invoice Verification** modal opens showing:
 - Job card totals
 - Invoice line items (parts)
 - **Service Charges** section:
 - Inspection Fee (default from admin, editable)
 - Labour Charge (editable)
 - Recovery Pickup Fee (if applicable, editable)
 - Recovery Dropoff Fee (if applicable, editable)
 - Subtotal breakdown
 - Discount
 - VAT (5%)
 - **Grand Total**
 - Customer wallet balance
3. Adjust service charges if needed
4. Click **Convert Invoice**

Service Charges: These are pre-filled from admin settings but you can edit them before converting. They appear as separate line items on the invoice.

Step 7: Topping Up Customer Wallet

When: Customer needs to add funds before payment

How:

1. Click **Top Up** button in the Wallet column
 2. Fill in the form:
 - **Amount:** Enter the amount in AED
 - **Payment Method:** Cash, Card, Bank Transfer, or Online
 - **Payment Date:** Select the date
 - **Payment Proof:** Upload receipt/proof image
 3. Click **Save**
 4. Wallet balance updates immediately
-

Step 8: Paying an Invoice

When: Invoice is created and wallet has sufficient balance

How:

1. Click **Pay Now** in the Invoice column
2. The **Pay Invoice** modal shows:
 - Invoice number and amount due

- Wallet balance (green if enough, red if not)
 - Balance after payment
 - If insufficient: shows shortfall amount
3. Click **Confirm Payment**
 4. Invoice status changes to **Paid**
 5. Wallet balance decreases by the invoice amount

If wallet is insufficient: Go back and **Top Up** the wallet first, then pay.

Step 9: Creating a Gatepass

When: Invoice is paid

How:

1. Click **Create Gatepass** in the Delivery column
 2. Gatepass is created automatically
 3. Status shows as **Pending**
-

Step 10: Releasing the Car

When: Gatepass is pending, car is ready for handover

How:

1. Click **Release Car** in the Delivery column
 2. The **Release Car** modal shows:
 - Customer name and vehicle plate
 - Confirmation text (payment, QC, supervisor approval, signature)
 - **Handover Notes** (optional)
 3. Click **Confirm Release**
 4. Car is released, status changes to **Delivered**
 5. Lead is closed
-

Step 11: Viewing Delivered Cars

Click the **Car Out** tab to see all cars you've delivered:

- Customer name and phone
 - Vehicle plate and model
 - Invoice number and amount
 - Payment status
 - Delivery status
-

Modals Reference

View Parts Modal

- **Opens from:** Parts Order column > View Parts
- **Shows:** Part name, vendor, type, price, status, delivery note

View QC Report Modal

- **Opens from:** Quality column > View QC Report
- **Shows:** Inspection checklist, photos, car wash status, video

Pay Invoice Modal

- **Opens from:** Invoice column > Pay Now
- **Shows:** Amount due, wallet balance, after-payment balance
- **Action:** Confirm Payment (from wallet)

Top Up Wallet Modal

- **Opens from:** Wallet column > Top Up
- **Shows:** Current balance, amount input, payment method, date, proof upload
- **Action:** Save topup

Release Car Modal

- **Opens from:** Delivery column > Release Car
- **Shows:** Customer, vehicle, confirmation text, notes
- **Action:** Confirm Release

Tips & Best Practices

Do's

- Accept leads promptly to avoid penalties and maintain your score
- Check the Car-In tab regularly for workflow updates
- Set accurate service charges before converting to invoice
- Always verify wallet balance before attempting payment
- Add handover notes when releasing car for documentation

Don'ts

- Don't ignore lead offers -- each timeout costs 5 penalty points
- Don't create invoices before job card is completed
- Don't release cars without verifying payment is confirmed
- Don't modify pricing without advisor approval

Keyboard Shortcuts

- **Refresh:** Click the Refresh button (top right) to manually reload data
- **Search:** Use the search bar to filter by customer name, phone, or email

Troubleshooting

Issue	Solution
Lead offer expired	Wait for next assignment cycle
"Forbidden" error on topup	Contact admin to check permissions
Invoice amount wrong	Go to estimate page, adjust pricing, re-create invoice
Gatepass creation fails	Ensure invoice is paid first
Parts showing "In Progress"	Check parts detail -- may need vendor delivery
QC Report empty	Complete final inspection in job card first
Wallet balance not updating	Click Refresh button
Car Out tab empty	Cars show here after gatepass is released

Getting Help

- Contact your **Branch Manager** for lead escalations
- Contact **IT Support** for system errors
- Check **AI Coaching** (top right button) for AI-powered performance tips
