

Global ERP -- Complete User Manual

Workshop Service Flow: Step-by-Step Guide

Version: 2.0 | Updated: 2026-03-31

Before You Start

Login

1. Go to your Global ERP URL
2. Enter your email and password
3. Select your company
4. You'll land on the company dashboard

Navigation

- **Sidebar:** Main navigation (Dashboard, Leads, Jobs, etc.)
 - **Top Bar:** Language, Theme, Find Customer, Test Panel, Settings
 - **Advisor Portal:** Service Center > Advisor Portal
-

Part 1: Creating a Lead & Booking

Step 1: Create a New Lead

1. Go to **Leads** page
2. Click + **CREATE LEAD**
3. Fill in:
 - Customer name and phone (required)
 - Car plate, make, model, year
 - Lead type: **Workshop**
 - Workshop flow: **Inspection** or **Direct Estimate**
4. Click **Save**

Step 2: Create a Booking

1. Find the lead in the leads list
2. Click **Book** button
3. Confirm lead type (Workshop)
4. Select booking type: **Walk-in** or **Recovery**
5. Set **priority** (Low/Medium/High)
6. Set **scheduled date and time**
7. For recovery: enter pickup and dropoff locations
8. Add notes (optional)
9. Click **Save Booking**

What happens automatically:

- Pre-inspection form link is sent to customer (SMS/WhatsApp/Email)
- Lead appears in the queue system

Step 3: Customer Submits Pre-Inspection Form

The customer receives a link and fills out:

- 8 yes/no questions about the vehicle condition
- Details for any "yes" answers
- Accepts terms and provides digital signature
- After submission, the car appears in the **Check-In Queue**

Step 4: Car Check-In

At the workshop (via queue system):

1. Select the car from Check-In Queue
2. Take **4 photos**: front, rear, right, left
3. Take **cluster image**
4. Record **360 video**
5. Submit check-in

What happens automatically:

- Lead status changes to **Car In**
 - Advisor is auto-assigned via PIS scoring
-

Part 2: Advisor Portal

Accessing the Portal

Go to **Service Center > Advisor Portal**

Dashboard Layout

- **KPI Cards (top)**: Total Leads, Converted, Car-In, Car-Out, Today Collection, Total Revenue, Total Calls, Answer Rate
- **Tabs**: Leads, Car-In, Car Out, Customers, Calls

Accepting a Lead

When a new lead is offered:

1. A **yellow banner** appears at the top with:
 - Customer name and phone
 - Vehicle plate and model
 - Service type
 - Pipeline value

- **Countdown timer** (5/7/10 minutes based on your tier)
- 2. Click **Accept Lead** before timer expires
- 3. If you miss it: 5-point penalty, lead goes to next advisor

Car-In Tab (Main Workspace)

This is where you manage all your active cars. Each row shows:

Column	What You See	What You Can Do
Customer/Car	Name, phone, plate, model	Click to open lead
Car In Time	When checked in	—
Pre-Inspection	Form status	—
Inspection	Status + PDF	Download inspection PDF
Estimate	Status + amount	View Estimate, Create Estimate
Parts Order	Received count + progress	View Parts (popup with details)
Job Card	Status + stages	View Job Card
Quality	QC status + wash	View QC Report (popup)
Invoice	Status + amount	Create Invoice, Pay Now
Wallet	Balance	Top Up
Delivery	Gatepass status	Create Gatepass, Release Car

Part 3: Inspection

Performing an Inspection

1. Open the inspection from the Car-In dashboard or leads page
2. Complete each step:

Step 1: Collect Car

- Review check-in photos/video
- Verify or reject each media item
- Select "No difference" or "Yes, there is a difference"
- Click **Save Collect Car Stage**

Step 2: Process Checks

- For each check (Oil, Battery, Tyre, OBD):
 - Select OK / ISSUE / NA
 - Upload check images
- All checks + images required

Step 3: Vehicle Data

- Enter/verify: VIN, Car Plate, Make*, Model*, Year* (required)
- Select tyre sizes (front and rear) from dropdown
- Enter mileage
- Use **Decode VIN** to auto-fill from VIN number

Step 4: Findings

- Select parts from **category catalog** (Engine, Brakes, etc.)
- For each finding set:
 - Action: Replace / Service / Repair
 - Priority: Safety Risk / Mandatory / Recommended
 - Quantity
 - Upload photo evidence
- AI generates assessment automatically
- Click **Save All** to save all draft items

Step 5: Complete

- Review all data
- Click **Complete Inspection**
- Download **PDF** report

Part 4: Estimate & Approval

Creating an Estimate

1. From advisor portal Car-In tab, click **Create Estimate**
2. Or open inspection and navigate to estimate

Setting Prices

- Each finding appears as a line item
- Set sale price for each type (OE, OEM, Aftermarket, Used)
- Use **AI Market Pricing** to check competitive rates
- Set status for each item: Pending / Approved / Rejected

Customer Approval

1. Click **Copy Customer Approval Link** or **Regenerate Link**
2. Share link with customer
3. Customer opens link, reviews items, selects preferences
4. Customer signs and accepts terms
5. Estimate status → **Approved**

Part 5: Parts & Procurement

Vendor Quotes

Vendors receive inquiries and submit quotes:

1. Enter pricing for each type (OEM/OE/Aftermarket/Used)
2. Select brand for each type
3. Set delivery time
4. Submit quote

Before processing order, vendor must:

1. Click **Complete Details** on the order
2. Enter **Part Number** (required)
3. Upload **Part Diagram** (required)
4. Then **View** becomes available

Receiving Parts

1. Go to **Procurement** page
2. Open the PO
3. Click **Receive Items** for each delivered part
4. Parts go to **Main Warehouse**
5. GRN (Goods Receipt Note) is automatically created
6. Transfer to workshop branch as needed

Part 6: Job Card

Job Card Stages

1. **Quote Accepted** → verify quote
2. **Collect Car** → review and approve car media
3. **Pre-Work Check** → enter mileage and confirm car details
4. **Parts Receive** → upload part photos for received parts
5. **Start Job** → begin work
6. **Evidence Upload** → upload working video
7. **Completed** → mark work done
8. **Final Inspection:**
 - Check all items: Test Drive, Cluster Warning, Tyre Check, Computer Reset, Protective Shields
 - Upload 4 car photos (front, rear, right, left)
 - Set Verify/Re-Work for each part
 - Click **Save Final Inspection**
9. **Car Wash:**
 - Upload 5 media (front, rear, right, left, video)
 - Click **Complete Car Wash**

Part 7: Invoice & Payment

Creating an Invoice

From the advisor portal:

1. Click **Create Invoice** in the Invoice column

Or from the estimate page:

1. Click **Review & Convert**
2. The **Invoice Verification** modal shows:
 - Job card totals
 - Invoice line items (parts)
 - **Service Charges** (editable by advisor):
 - Inspection Fee (default from admin)
 - Labour Charge
 - Recovery Pickup Fee (if applicable)
 - Recovery Dropoff Fee (if applicable)
 - Subtotal breakdown with VAT
 - Grand Total
 - Customer wallet balance
3. Adjust service charges if needed
4. Click **Convert Invoice**

Topping Up Wallet

1. Click **Top Up** in the Wallet column
2. Enter **Amount** (AED)
3. Select **Payment Method**: Cash / Card / Bank Transfer / Online
4. Select **Payment Date**
5. Upload **Payment Proof** (receipt/document)
6. Click **Save**
7. Balance updates immediately

Paying an Invoice

1. Click **Pay Now** in the Invoice column
2. Modal shows:
 - Invoice number and amount
 - Wallet balance (green if sufficient, red if not)
 - After-payment balance
 - If insufficient: exact shortfall amount shown
3. Click **Confirm Payment**
4. Wallet is deducted, invoice marked **Paid**

Important: If wallet balance is not enough, top up first, then pay.

Part 8: Car Delivery

Creating a Gatepass

1. After invoice is paid, click **Create Gatepass** in the Delivery column
2. Gatepass created automatically (status: Pending)

Releasing the Car

1. Click **Release Car** in the Delivery column
2. Modal shows:
 - Customer name and vehicle plate
 - Confirmation checklist
 - Handover notes (optional)
3. Click **Confirm Release**
4. Car is released, lead closes as **Closed Won**
5. Car moves from **Car-In** tab to **Car Out** tab

Part 9: Viewing Delivered Cars

Click the **Car Out** tab to see all delivered cars:

- Customer name and phone
- Vehicle plate and model
- Invoice number and amount paid
- Payment status
- Delivery confirmation

Part 10: Viewing Customers

Click the **Customers** tab to see all your assigned customers:

- Customer name (clickable to dashboard)
- Phone number
- Latest car plate and model
- Lead status
- Number of leads from this customer
- Wallet balance

Reports & Documents

Available PDFs

Report	Where to Access
Inspection Report	Car-In tab > Inspection > PDF
Estimate Quote	Estimate page > Print Quotation
GRN Report	Procurement page > GRN PDF
Invoice	Invoice column > Print

QC Report (On-Screen)

1. Click **View QC Report** in Quality column
2. Shows: Final inspection checklist (PASS/FAIL), inspection photos, car wash status, car out video

Parts Detail (On-Screen)

1. Click **View Parts** in Parts Order column
2. Shows: Part name, vendor, type, price, status, delivery note

Common Tasks Quick Reference

Task	Where	Action
Accept a lead	Top banner	Click Accept Lead
View job card	Car-In tab	Click View Job Card
View parts status	Car-In tab	Click View Parts
View QC report	Car-In tab	Click View QC Report
Create estimate	Car-In tab	Click Create Estimate
Create invoice	Car-In tab or Estimate page	Click Create Invoice or Review & Convert
Top up wallet	Car-In tab	Click Top Up
Pay invoice	Car-In tab	Click Pay Now
Create gatepass	Car-In tab	Click Create Gatepass
Release car	Car-In tab	Click Release Car
View delivered cars	Car Out tab	Browse table
View customers	Customers tab	Browse table
Refresh data	Top right	Click Refresh

Troubleshooting

Problem	Solution
Lead offer expired	Wait for next cycle or ask manager
Can't create estimate	Inspection must be completed first
Can't create invoice	Job card must be completed + parts received
Can't pay invoice	Top up wallet first
Can't create gatepass	Invoice must be paid first
Can't release car	Gatepass must exist
Wallet not updating	Click Refresh button

Problem	Solution
"Forbidden" error	Ask admin to check your permissions
Parts showing wrong status	Click View Parts for detailed breakdown
QC report empty	Complete final inspection in job card first
Service charges not showing	Open Review & Convert to set them
Invoice amount wrong	Adjust pricing in estimate before converting

Tips for Success

1. **Accept leads quickly** -- every timeout costs 5 penalty points
2. **Monitor Car-In tab** -- it's your main workspace, check it regularly
3. **Set service charges correctly** -- review before converting to invoice
4. **Top up wallet before payment** -- check wallet balance in advance
5. **Use View Parts / View QC** -- stay informed on each job's status
6. **Complete all stages in order** -- the system enforces prerequisites
7. **Use Refresh button** -- data auto-refreshes but manual refresh is instant
8. **Check Car Out tab** -- track your delivered cars and revenue
